

BRAVE®

Why Brave?

- Powered StudioLoft™ Bed
- Swivel cab seats with movable pedestal table
- LED ceiling and accent lighting
- Easy-slide overhead cabinet doors
- Powered patio awning

WINNEBAGO[®]

On the Cover: 31C Crimson-N-Clover Standard Graphics

31C Calypso with Cream Soda Cabinetry

The People Have Spoken

When we re-launched the retro-styled Brave™, we knew we had something special. But the response from the public was simply overwhelming. We're proud to bring back the 2015 RV of the Year with even more features at a price that is still among the most affordable in its class. Many of the amenities in the Brave were

chosen not just for their style, but for their multi-functionality, such as the easy-slide overhead cabinet doors, StudioLoft™ bed and movable dash console that glides easily between the driver and passenger. There's no other coach quite like it, and that's 100% by design. This is the award-winning Winnebago Brave.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

It takes more than a throwback design to win RV of the Year. Step inside and you'll find innovation around every retro-styled corner, highlighted by the sofa and dinette that convert to beds in the full-wall slide (31C). Enjoy movie nights with the retractable HDTV on a power lift that's cleverly concealed in the buffet. The Flex Bed in the 26A lounge converts from a couch into a bed, or can be flipped up and out of the way to add floor space. In this position, a powered table flips up at the press of a button if you need a serving table or a smooth work surface. Swivel cab seats with a movable pedestal table expand your lounge when you're at the campsite.

31C StudioLoft Bed with Ladder

MCD Blackout Roller Shades

31C Retractable HDTV

A full-featured galley is an essential part of any motorhome, and we've done it in style with easy-slide cabinet doors and waterfall-style laminate countertops that are a must-see for any RV enthusiast. The 31C takes the galley a step further with a residential refrigerator/freezer with an icemaker and a 2000-watt inverter to ensure your food stays cool as you roll down the road.

31C Galley

Full-Extension Drawer Slides

31C Refrigerator/Freezer

Stainless Steel Sink

Microwave Oven with Touch Control

3-Burner Range with Oven

31C Bedroom

31C Wardrobe

31C Wardrobe Closet

31C Shower

31C Bathroom

All three Brave floorplans feature a rear queen bed with an available king bed upgrade in the 31C. Relax in front of the bedroom HDTV in the 31C floorplan. The 26A stands out as one of the only coaches with an auxiliary StudioLoft bunk above the bed that drops down to provide additional sleeping space for overnight guests. A split bath in the 27B and 31C provides room for a larger shower and ample countertop space.

Dash

The retro look blends effortlessly with cutting edge technology in the cab, where you'll find a movable dash console that can be positioned near the driver or passenger on command. It houses the Rearview Monitor System and the Rand McNally RV GPS navigation system. The dash stereo includes AM/FM radio with an auxiliary audio input and Bluetooth™ connectivity.

Radio

Front Wraparound Curtain

A powered patio awning comes standard, along with plenty of storage for folding chairs and a cooler. Why? Because when you have an award-winning coach with one-of-a-kind retro styling, you'll want to enjoy the view. Automatic hydraulic leveling jacks will make sure your coach is level while an automatic generator start system in the 31C keeps your power flowing.

Exterior Storage

Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It

Rubber roofs used by competitors can streak and degrade over time.

Thermo-Panel® Sidewalls

By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

Laser-Cut Tubing

Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints

Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**

Click here to explore this floorplan's web page.

26A

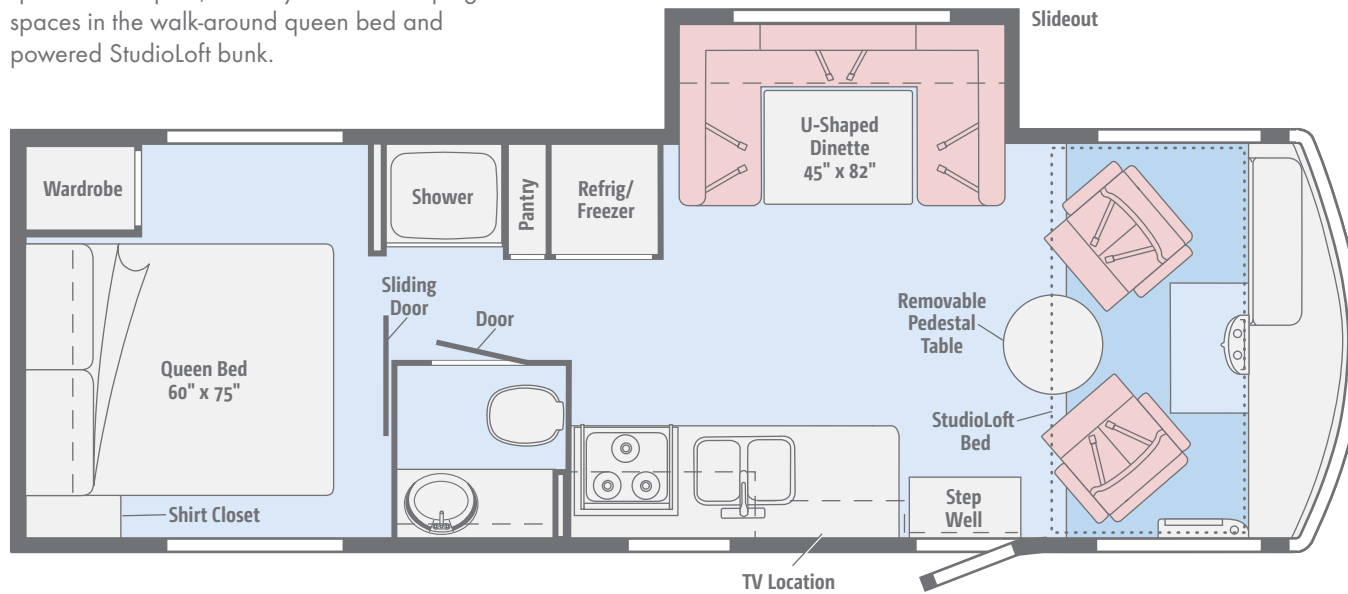

The multi-function Flex Bed system works beautifully as a bed, sofa, and table, or simply flips out of the way for additional floor space. With additional sleeping space in the two StudioLoft beds, it's the perfect coach for the traveling family.

[Click here to explore this floorplan's web page.](#)

27B

The U-shaped dinette takes center stage in this spacious floorplan, where you'll find sleeping spaces in the walk-around queen bed and powered StudioLoft bunk.

 [Click here to explore this floorplan's web page.](#)

31C

An L-shaped galley and split bath take full advantage of the additional space provided by the full-wall slideout. The sofa/bed and swivel cab seats with movable pedestal table all face the retractable HDTV.

- Auxiliary start circuit
- HDMI/USB module
- Exterior antenna jack and AC duplex receptacle

Plumbing System

- Permanent-mount LP tank
- On-demand water pump
- TrueLevel™ holding-tank monitoring system
- Winterization Package water heater bypass valve and siphon tube
- 6-gallon electric ignition/LP water heater
- Gravity water tank fill w/lockable door
- LPG accessory connection (patio area)
- City water hookup
- 10' sewer hose

OPTIONAL EQUIPMENT

- Heated drainage system

Safety

- Fog lamps
- Child seat tether anchor
- LP, smoke, and carbon monoxide detectors
- 10 BC fire extinguisher
- Ground fault interrupter

Warranty⁷

- 12-month/15,000-mile basic limited warranty⁸
- 36-month/36,000-mile limited warranty on structure⁸
- 10-year limited parts-and-labor warranty on fiberglass roof skin⁸

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- Floorplans feature a wide-body design - over 96" in making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.
NA Not Available
Not all items available in combination. See dealer for details.
Winnebago's continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
